Homeowner Limited Lifetime Warranty Five Year Commercial Warranty

We warrant to the original consumer purchaser of our products that, our cabinets will be free from defects in material, finish and workmanship for a period of FIVE YEARS (5) from date of purchase, and Limited Lifetime on their structural integrity, as long as they own their home where our products are initially installed, our products will be free from defects in material and workmanship under normal home use and service at the original site of installation. This warranty is only applicable to our products used in residential applications within the United States and is not transferable to subsequent owners. Our obligation under this warranty shall be limited to the repair or replacement of any part or parts of our products which are determined by our examination to be defective under normal home use and service within the warranty period.

This warranty does not apply to the mellowing and aging of wood products due to the effect of natural and artificial light to woods and finishes, variation in the wood grain or color, or visible cracking around joints. This warranty does not cover countertops, appliances, plumbing fixtures, etc. or the costs and expenses, including labor, incurred in removing or installing our products and related components. This warranty shall not apply to the effects of normal wear and tear or any product or part thereof which has been subject to accident, alteration, acts of God, abuse, misuse, improper installation, improper storage, excessive humidity or fluctuations in humidity, excessive exposure to direct sunlight, exposure to moisture or exposure to extreme temperatures. We make no warranty whatsoever with respect to accessories or parts not supplied or manufactured by us.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND CONDITIONS, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE OR USE AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON OUR PART. WE NEITHER ASSUME, NOR AUTHORIZE ANY OTHER PERSON, INCLUDING OUR SALES REPRESENTATIVES, DEALERS AND DISTRIBUTORS, TO EXTEND OR ASSUME FOR US ANY OTHER WARRANTY, CONDITION OR LIABILITY IN CONNECTION WITH THE SALE OF OUR PRODUCTS. THE REPAIR OR REPLACEMENT OF DEFECTIVE PRODUCTS WILL BE THE PURCHASER'S EXCLUSIVE REMEDY AND THE PURCHASER HEREBY WAIVES ALL OTHER REMEDIES, WARRANTIES, CONDITIONS, GUARANTEES, AND/OR LIABILITIES (EXPRESS OR IMPLIED) ARISING BY LAW OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, ALL IMPLIED WARRANTIES AND CONDITIONS, AND ALL CLAIMS AGAINST ENVOY CABINETY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES.

Envoy reserves the right to alter design, specifications and material without obligation to make similar changes to products previously manufactured. If a warranty claim is filed after a style is no longer being manufactured by Envoy, Envoy reserves the right to honor the warranty by either replacing the affected part with a new part of the same style, or replacing the affected part and any other parts in the residential application to achieve a uniform appearance with a similar and comparable product style of the original purchased style. If parts are replaced, Envoy cannot guarantee that the finish of these replacements will exactly match the finish and appearance of the parts in the residential application. This is due to the changes that occur during the wood's natural aging process, affecting its color and grain.

This warranty gives you specific legal rights and you may have other rights, which vary from state to state. Some states may not allow the exclusion or limitation of consequential or incidental damages, so the above limitations or exclusions may not apply to you.

To file a warranty claim, contact your authorized Envoy dealer or distributor, who will arrange for inspection of our products. A dated receipt as proof of purchase is required to obtain benefits from this warranty. The authorized dealer or distributor will obtain the information necessary to make a claim and forward such information in writing to Envoy Cabinetry, Inc. for action on the claim. Warranty claims must include a complete description of how the defect occurred.

FINISH & WOOD APPROVAL FORM

Please submit this form with **ALL** orders to avoid delays in processing.

We feel it is important to explain some of the natural characteristics of woods and finishes which will have variations simply because of their hand-application and their natural origins. Perfection and consistency can be achieved with synthetic products like laminates and plastics, but with natural woods and hand-applied finishes, variations are inevitable and part of their unique beauty and charm. The variations outlined below are natural characteristics and should not be considered reason for product replacement or warranty.

CHARACTERISTICS OF WOOD:

Color, Grain & Texture: Wood is a product of nature and will vary in color, texture and grain. This natural variation is part of the beauty, character and charm of wood – no two pieces are exactly alike. Cabinetry is crafted with many different types and cuts of wood - solid wood, veneer and plywood – and each can affect the final look of the finish. Even the soil and climate in which a tree grew, can affect the color and graining and how the wood accepts a finish.

Age/Mellowing: As wood ages and with exposure to sunlight and other elements, it will change slightly in color – this is called “mellowing”. In most species, the color will darken slightly but with Alder, it will actually become a shade lighter. This color change is subtle and occurs over time but can occur rapidly with intense, direct exposure to sunlight. (See below.)

Moisture/Humidity: All woods are affected by moisture and seasonal changes in humidity. In high humidity conditions, wood will expand, and in low humidity, wood will contract. This normal wood movement is more noticeable with mitered joints (some door styles) and “Inset” cabinetry. It is important to maintain year-round humidity levels (during storage, installation and use) at approximately 35%. Cabinetry (and any wood product) should not be exposed to extreme fluctuations in temperature and/or humidity.

CHARACTERISTICS OF FINISH:

Hand-applied finishes (stains, paints, glazes and various distressing techniques), enhance the natural beauty of the wood. As with any hand-application, there can be subtle variations in the application, the absorption of the stain, and the glaze detailing. Glazes and hand-distressing techniques require an especially artistic application and are meant to be random. For all woods and finishes, it is important to view door samples and displays to see the full spectrum of color and wood variation that can occur. This is especially important for any glazed or distressed finishes due to their artistic application. Selections should not be based off a small color chip alone.

- ❖ **Natural Finish** - All woods in a natural finish will exhibit some color change (mellowing) when exposed to light. Any natural color variation within the wood will be more pronounced with a natural finish.
- ❖ **Dark stains on Maple or Alder** - Because of the “density” of Maple, and softness of Alder, these wood species have varying areas of density that may absorb stains differently within the same area and create an inconsistent appearance.
- ❖ **Paint Finishes** - Hairline cracks may appear at the joints due to natural wood movement with seasonal changes in humidity. Joint cracks will be especially noticeable on mitered doors and will not be considered reason for warranty replacement. Mitered doors are not recommended with paint finishes for this reason and should be used with caution in high humidity regions.
- ❖ **Glaze/Accent Finishes** - Glaze is applied and wiped by hand creating a “build up” in corners and profiles. Glaze is an artistic application and is intended to be random and unique for each application.
- ❖ **Distressed Finishes** - Multi-step finishes that use hand-detailing (distressing) require an artistic application and are intended to be random and unique for each application.
- ❖ **Exotic Veneers** - Exotic veneers have natural variations in grain pattern and color will be visible and are an expected characteristic.
- ❖ **“Mellowing”**- All wood species will change color with age and exposure to sunlight, heat and other elements. Some species are more susceptible to mellowing than others. Cherry will significantly darken as it ages. New cabinetry will be noticeably lighter in color than displays and aged samples, but will eventually mellow. Cherry can also exhibit areas of light and dark wood (heartwood and sapwood) within the same panel. Maple will darken and slightly yellow as it ages. Alder will lighten as it ages.
- ❖ **Custom Color Match Finish** - A Custom Color match is provided to the customer for approval of the general appearance and color of the finish. Natural wood variations grain, profiles and edge shapes may affect the final overall look.

Custom Color # _____ Custom Door # _____

The characteristics listed above have been discussed with our customer and they have been shown a representative sample of their applicable wood and/or finish. The customer understands this information and agrees not to hold the manufacturer, or the dealer responsible if they later determine these natural characteristics are not acceptable.

Thermally Fused Laminate (TFL) is a resin saturated décor paper laid directly onto a substrate and heated to literally fuse it onto the core, creating a uni-layer surface.

TFL doors and drawer fronts are designed for durability, featuring an outer layer that resists chipping, scratches, dents, stains, and moderate heat.

Electra Series: Pro Series

3/4" slab door with coordinating edge band on door and drawer front.

Advanced Technology Lacquer is a painted product using a state-of-the-art process. The result is a scratch and stain resistant surface that endures moderate heat for lasting durability. The finish is antibacterial treated and eco-friendly.

Medium Density Fiberboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibers. Combined with wax and a resin binder, high temperature and pressure is then applied to form panels. MDF is generally denser than plywood, is stronger and more dense than particle board. MDF has smooth, uniform, and non-warping characteristics.

Electra Series: Milan Matte

Shaker Grey

Lacquer is a paint product that dries hard and is more resistant to water than other paint products. The lacquer finish is applied using a state-of-the-art process. Lacquer is a strong and durable wood finish.

Paint finishes: Wood naturally expands and contracts with seasonal changes in humidity. This normal wood movement is more apparent with painted finishes and will be most noticeable at joints where it will look like a "seam" or a "hairline crack". This is a natural characteristic of painted finishes on wood and is considered acceptable.

Cherry Quartered

Black Walnut Qtrtd

Wood veneer is produced by rotary cutting or slicing of a specific wood species. There is variety in grain and color due to the natural characteristics of real wood.

The natural color and sheen of the samples shown are representations. No two pieces of wood are ever exactly alike. Due to the difference in natural color and grain, each piece of wood will react differently to the clear top coat material applied.

Medium Density Fiberboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibers. Combined with wax and a resin binder, high temperature and pressure is then applied to form panels. MDF is generally denser than plywood, is stronger and more dense than particle board. MDF has smooth, uniform, and non-warping characteristics.

Reconstituted wood veneer is an environmentally friendly rotary cut veneer created from various renewable wood species. It offers a high degree of consistency in color and grain.

The natural color and sheen of the samples shown are representations. Due to the variance in color and grain, each piece of reconstituted wood veneer will react differently to the clear top coat material applied.

Medium Density Fiberboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibers. Combined with wax and a resin binder, high temperature and pressure is then applied to form panels. MDF is generally denser than plywood, is stronger and more dense than particle board. FLOATING SHELVES

- Standard height is 2".
- Standard depth is 10".
- Available in 1/16" width increments from 24" to 72".
- Standard grain direction will be horizontal on top, bottom, and front edge. Ends will have vertical grain.
- Option of horizontal grain top, bottom, and all edges.
- Metal brackets are included with your order.
Max load weight for included bracket is 10 lbs per lineal foot.

NOTE: All laminate and melamine products will show a fine black edge where the face material meets the side material. More noticeable on white or lighter finishes.

FSHF2-48. Specify width on excel order form notes or in 2020.
(i.e. FSHF2-48-43.5 = Floating Shelf, 43.5" x 2" x 10")

ITEM	DESCRIPTION	PRICE GROUP

SHELF MATERIAL

3/4" thick shelf material. Available interior box material or finished material. Must specify.

NOTE: to calculate exact width and depth to fit inside a cabinet:

Take outside cabinet width and subtract 1 5/8"

Take outside cabinet depth and subtract 1"

Example: extra shelf for W3630 = 34 3/8" x 11"

Order by exact size. Priced by the square foot.

Width x Depth divided by 144 = square feet.

NOTE: If there is a grain pattern, it will run the direction of the width dimension.

One edge of the width will be edge banded.

SHELF-W. Specify width and depth on excel order form notes or in 2020. Excel will calculate square footage.

(i.e. enter in Excel as: Shelf-W-34.375-11 = White melamine shelf, 34.375" x 11" x 3/4".

ITEM	DESCRIPTION	PRICE PER SQ. FT.
SHELF-W	White Melamine	\$13
SHELF-G	Gray Melamine	\$15
SHELF-B	Birch Plywood	\$18
SHELF-L	Matches Laminate, Foil, Melamine, Paints	\$45
SHELF-V	Matches Veneer Door	\$97

CUSTOM SIZED DOORS

Available in "Electra Series" only. Minimum 2 square foot charge.

All four edges of panels will be edge banded.

- Roma Series will have matching backs where available per door styling description.
- Roma Shaker Series will have a minimum of 6" width and height for profile details.
- Minimum width and height for Slab Doors is 3".

Order by exact size. Priced by the square foot.

Width x Height divided by 144 = square feet.

Example: 12" x 38" = 456 divided by 144 = 3.167 square feet.

(i.e. enter in Excel as: FASCIA-L-12-38 =

Laminate, Foil, Lacquer Door 12" x 38" x 3/4").

Excel will calculate square footage.

CABINET NO DOOR(S)

- Cabinet includes shelves, drawer boxes, accessories and glides where applicable.
- No doors or drawer fronts will be included.
- Cabinet will have white or wood veneer interiors unless you have selected a glass wall cabinet with finished interiors.
- Can be ordered for any standard cabinet.

Examples:

W3030-ND

B1D3034-ND

TU3690-ND

CODE	WALL	BASE	VANITY	TALL
ND	-15%	-15%	-15%	-15%

REDUCED DEPTH

- Minimum depth of a cabinet without a drawer is 6".
- Minimum depth of a cabinet with a drawer and glides is 13".
All other depths with drawers are quoted only (will add to lead times).
- Some cabinets may not be able to be modified.
- Corner cabinets excluded.
- Specify depth after code, i.e. B1D3034-RD15
- Please note: base & tall cabinet shelves are set back from front of box 2 1/2" (i.e. TU3090-RD9 has a shelf 2 1/2" less than box). Wall cabinets are set back 1".
- Reduce width in increments of 1/4". i.e. B1D3034-RD18.75.

Examples:

W3030-RDxx

B1D3034-RDxx

TU3690-RDxx

CODE	WALL	BASE	VANITY	TALL
RD	\$100	\$100	\$100	\$100

REDUCED WIDTH

- Only available in "Electra Series".
- Use next standard size cabinet **larger** than the requested size.
- Minimum width of cabinet without a drawer is 6"
- Minimum width of cabinet with a drawer and glides is 7".
- Some cabinets may not be able to be modified.
- Corner cabinets excluded. Custom quote only.
- Specify width after code, i.e. B1D3034-RW29
- Reduce width in increments of 1/4". i.e. W3030-RW29.75.
- Depending on size of stiles and rails, modification can lead to slab doors and drawer fronts.

Examples:

CODE	WALL	BASE	VANITY	TALL
RW	\$200	\$200	\$200	\$200

REDUCED HEIGHT

- Only available in "Electra Series".
- Use next standard size cabinet **larger** than the requested size.
- Minimum height of base cabinet without a drawer is 15". One drawer base cabinet is 21". Two drawer base cabinet is 18". Three drawer base cabinet is 24". Four drawer base cabinet is 31".
- Minimum height of a wall cabinet is 6".
- Minimum tall cabinet height to be 66".
- Specify height after code, i.e. TU1884-RH81.
- Reduce height in increments of 1/4". i.e. TU1884-RH66.75.
- Depending on size of stiles and rails, modification can lead to slab doors and drawer fronts.
- Upper section of standard tall cabinets will decrease in size with the modification.
- Lower section of standard base and vanity cabinets will decrease in size. Top drawer, if applicable, will remain the same size.
- All other cabinet configurations to be custom quoted.

Examples:

W3030-RHxx

Please Note:
reduction will be
from the top
section only.

TU3690-RHxx

B1D3034-RHxx

CUSTOM ALUMINUM FRAME CABINET DOORS

Contact Envoy for dimension exceeding recommended maximums.

- Price is per door, based on square foot range.
- Price includes glass.
- Handle holes cannot be drilled through glass on site.
- Hardware not included.
- Price is added to overall cabinet price.
- Square foot is $L \times W \div 144$. i.e. $W2130 = 21 \times 30 \div 144 = 4.375$ sq. ft.
- Price each door individually. i.e. $W4230$ would equal 2 doors at 4.375 sq ft each.
- Additional glass and frame color options available by custom price quote request.
- Specify aluminum door item number on 2020 order form or Excel order form to be applied to the cabinet desired.
